

Staying Safe On the Internet

Be Vigilant!

- ✓ Never give banking information to callers - when in doubt, hang up and call your bank directly.
- ✓ Use letters, numbers, and special characters to create complex passwords.
- ✓ A password keeper can help you keep your passwords safe.
- ✓ Only use WiFi in secure places or use a VPN.
- ✓ Update your software! This includes Microsoft Word, Web Browsers, and Adobe.
- ✓ Back up all your files! This will help you not lose important documents.
- ✓ No one should ask for information that they already have like account numbers or personal info.
